pawar.rani241996@gmail.com | 7775901985 | LinkedIn

Frontend Developer with hands-on experience building responsive, user-friendly web interfaces using React JS, HTML, CSS, and JavaScript. Proven ability to develop reusable UI components, integrate REST APIs, and improve user experience through performance-focused frontend work. Strong foundation in cross-browser compatibility, mobile responsiveness, and frontend debugging. Eager to bring a practical, design-minded approach to a frontend developer role and keep growing in a fast-moving product team.

## Education

**Bachelor of Engineering**, Nagpur University, Nagpur, Maharashtra, Grade: CGPA - 8.79.

**Full Stack Web Development**, Newton School, Bengaluru, Karnataka. [Link](#)

10/2022 - 10/2023

Throughout the bootcamp, actively participated in weekly contests and completed assignments that challenged skills and reinforced concepts learned. Worked on several mini-projects applying HTML, CSS, and JavaScript to build functional and interactive web applications.

## Work Experience

**Clinchbridge Solutions, Frontend Developer Intern**, Nagpur, India.

12/2025 - 01/2026

- Built reusable UI components using React JS at Clinchbridge Solutions, accelerating frontend development and improving consistency across web pages
- Developed responsive web pages using HTML, CSS, and JavaScript, delivering mobile-ready interfaces with cross-browser compatibility
- Integrated REST APIs for dynamic data rendering, enabling more interactive and data-driven user experiences
- Improved website performance and user experience through frontend optimization work focused on responsiveness and usability
- Used Git for version control while collaborating with team members to manage code changes efficiently

**Unified Mentor, Frontend Development Intern**, Nagpur, India.

11/2024 - 12/2024

- Designed and implemented interactive user interfaces at Unified Mentor, translating requirements into polished frontend experiences
- Worked with React JS to create reusable components, strengthening maintainability and speeding up UI delivery
- Ensured cross-browser compatibility and mobile responsiveness across frontend features to support consistent user access
- Assisted in optimizing performance and improving user experience by refining frontend behavior and page responsiveness
- Participated in testing and debugging frontend features, identifying issues early and improving release quality

**Ceinsys Tech Ltd, Junior Executive-HR**, Nagpur, India.

08/2021 - 08/2022

- Managed onboarding, documents screening, and offer letter preparation/release at Ceinsys Tech Ltd, maintaining accurate employee records and coordination workflows
- Coordinated with candidates to release offer letters, collect documents from new joiners, and support deputation / transfer letter preparation and issue to employees
- Worked with the IT team for generation of official mail id of new joiners and completed biometric registration and employee documentation
- Maintained the database of RMG and employee headcount and handled registration of new employees in Spine HR Software

## Projects

**Zee5-Cinema-Clone**. [Link](#)

10/2025 - 12/2025

- Application designed to display information about movies and TV shows. Includes features such as viewing movie details, cast, videos, recommendations, and similar content. Users can search for movies and TV shows, view details about them, and watch trailers.

**Portfolio** [Link](#)

11/2023 - Present

- Personal portfolio showcasing skills, experience, and education. Follows a responsive design approach, ensuring it is visually appealing and functional across different devices and screen sizes.

- Ecommerce web application that emulates the functionality and design of The Souled Store ecommerce platform, a prominent fashion brand known for its exclusive collection of clothing and accessories for men and women.

## ———— Achievements
